Experience

Full Stack Developer - September 2020 – Present

- Collaborated with local and U.S. clients to develop, customize, and maintain websites using HTML, CSS, JavaScript, ReactJS, Webflow, and PHP/WordPress.

Frontend Developer / Team Lead – VTimeTech | May 2024 – July 2025

- Leading multiple projects, mentoring juniors, deciding priorities, and report to investors
- Using React.js/Next.js, I implemented additional app features and resolved bugs.
- Implemented translation/localization, and other website updates.

Junior Software Engineer - Volenday | February 2023 – April 2024

- Standup meeting and reporting with clients as a Business Analyst. Create and complete Jira tickets and lead team (2) projects. Contribute brainstorming solutions to resolve issues and features to implement.
- Using React.js/Next.js/Flutter, I actively contributed to the development of the Catalog Admin dashboard, Data Publication app, B2B Catalog App, and converting a website that uses Ant Design Framework to MUI Framework. Collaborated on implementing a Proof of Concept for a customized OpenAI's GPT.
- Using ExpressJS (Node), I assisted in debugging API issues.

Web Developer - Infinity Web Solutions | September 2020 – September 2021

- Leveraging WordPress and Shopify, I designed and built e-commerce websites, customized themes and templates to match clients' branding and requirements. Add functionality using packages and plugins.
